JAMES BARBOUR.

The SPEAKER *of the House of Representatives.*

WAR DEPARTMENT, *Office of Indian Affairs, January* 19, 1828.

SIR: I have the honor to accompany this with an abstract, in conformity to a resolution of the House of Representatives of the 16th instant, (and upon which you have directed me to report to you,) of each and every head of an Indian family who is entitled to a reservation of land by virtue of the treaty made between John C. Calhoun, late Secretary of War, and the chiefs and headmen of the Cherokee nation of Indians, at the city of Washington, February 27, 1819, distinguishing between those who are entitled to reservations in fee-simple and those who are entitled to reservations for life only, with reversion, in fee-

simple, so far as the records of this office enable me to do so. There is no information in this office in regard to the question of reversion.

Respectfully submitted.

THO. L. McKENNEY.

Hon. the SECRETARY OF WAR.

List of persons entitled to reservations under the treaty with the Cherokees of February 27, 1819, according to the treaty, and the returns of the commissioners appointed to superintend the surveying and laying off said reservations to the War Department, showing those entitled to reservations for life and those entitled to reservations in fee simple.

Resolutions Released to North Carolina

Reasons why
the valuation
should be
made by
the Sheriff
and Justices
of the Peace

Reasons why the valuation should be made by the Sheriff and Justices of the Peace

Reasons why the valuation should be made by the Sheriff and Justices of the Peace, instead of the Assessors appointed by the Parishes

Plantations were cleared by the slave system on each side of the river, & divided the claims by the former Board of Compensation at a valuation of the ~~slaves~~ same & all evidence that the Commissioners proceeded upon, & that no gross inequality could exist in the cases have been referred to us, & in value of the land on each side may be deemed. The case has been quoted to show, that the Negroes acted as general valuers, & as the loss of the Negroes valued, they were not in the service of the proprietors

The valuations thus ascertained amount, the one to £ 8000 & the other to four thousand pounds, in all £ 11.000 & deducting the general minimum fixed charge of £ 1000 all, that can or will be claimed for the two estates } - 1000
£ 9.000

We take leave then to suggest, if it would not be possible, to obtain an act of Congress authorizing Trustees to be appointed to decide upon such claims, & the Board of Compensation ~~may~~ to be dissolved - the Trustees being vested with powers of the Board for that purpose

By such action the Land could keep the claims; & for the aforesaid value, the government would become a creditor upon the Chesapeake & Ohio Canal Co. for the sum of £ 9.000 as above stated, they would be satisfied by the amount of £ 9.000; & the parties claiming would be relieved & return their homes. The attorneys employed in these cases, could be stopped & the whole business would be settled

cation

called upon to consider them, in regard

Again, these pretended reservations are made as to the fee tail, which the Court has reversed, and by the 8th article of the treaty of 1817 only a life estate which is then, to prevent the children at some future time, from asserting their claims to the remainder vested or contingent that as the law, have parted with their fee interest to the tenant for life, their title again
revives defeated, & must again
~~shall be restored~~. Of these claims the sum of $36 000
has already been paid; & a great deal more remains
to be considered. It is difficult to envision therefore
at some future time, the children of those who
may not die, it was the life estate of one with
& not our fee, that you confirm & paid
In respect to the suggestion, if it be not a
matter of prudent consideration, to fund the future
allowed reservation claims, so that the tenant
for life, may during his life be entitled to the
interest only; & without the power in the trustee
to sell to defend those claims again, for if the
children as the adopted (New Britain) to succeed cannot
be defeated in their rights, by sale of the ancestor, so
must they be entitled to the profits, or the sale of the
ancestor, to prefer their claims again

To Robert Armstrong Surveyor appointed to locate Cherokee reservations.

Sir, You are hereby requested to apply to Colonel Meigs the Cherokee Agent, for a list of the life estate reserves, that have been taken according to the provisions of the treaty, and proceed to locate them in the same manner as you were instructed to lay off the fee simple reservations — You will survey only those that were taken under Jackson treaty previous to the the first of July 1818. and under Calhoun treaty those that were entered between the 10th of March and the 10th of September 1819 until you are further advised.

It will be your duty to be well satisfied that the claimant by himself or some other person for him, did erect, and reside and cultivate his residence upon the land so entered at the date of the ratification of the said treaties; otherwise you will suspend making a survey for him.

You will not survey any reserves that have been done by the surveyor of the Highwassee district, but will report them to me.

Knoxville 10th of July 1820

Sir

I have received your letter of the 13th ultimo authorising me to have the reservations of life estates laid off, which have been taken according to the provisions of the treaty.

The Legislature of Tennessee have passed a land law, and in it have expressed their opinion touching reservations under jackson's treaty which were taken before the 1st of July 1818. That is, all those reservations are prohibited from sale, until further provisions shall be hereafter made by law. Also all the reservations specified and named in the treaty made by the Hon.ble J.C. Calhoun and the Cherokee deputation, shall be prohibited from entry, sale or other appropriation, but shall be taxed as other lands.

From this construction it would seem, that those reservations taken after the 1st of July 1818, and before the 10th of March 1819 that they are invalid, and all others taken between the 10th of March and the 10th of September 1819 are in a similar situation.

I have instructed Mr. Armstrong the surveyor, to survey only those that were taken before the 1st of July 1818 and between the 10th of March & the 10th of Sept. 1819 until otherwise instructed.

I am very respectfully
Your obedient servant

Sir,

By the 8th article of the treaty concluded with the Cherokee Nation on the 8th July 1817, it is stipulated that the heads of Indian families residing East of the Mississippi, who are desirous of becoming citizens, shall be entitled to reservations of land the register of whose names is to be filed in the office of the Cherokee Agent, which shall be kept open until the census is taken. The 3rd Art. of the same treaty stipulates, that the census shall be taken during the year 18 of June 1818, but in which enumeration was not taken, as it was not considered important to the U. States at that time as the Cherokee Nation did not require it. In a subsequent treaty concluded with that Nation on the 27th Feby 1819 which recognises by the 2d article the right to take reservations, the taking of the census was dispensed with. By the 7th art. of the last treaty, the U. States bind themselves to prevent the intrusions of their citizens upon the ceded lands before the 1st of Janry 1820, in order to afford the Cherokees, who reside on them, time to cultivate their crops and for those who do not choose to take reservations to remove.

By the enclosed letter from Mr Houston, you will see that the Legislature of Tennessee has refused to confirm the reservations taken in virtue of the provisions of these treaties, subsequent to the 1st July 1818. The object of this letter is to obtain your opinion, whether the reservations taken under the treaty of 181[illegible], subsequent to the 1st July 1818, and previous to the conclusion of the treaty of the

Sir

I have examined with great deliberation the questions submitted for my opinion on the two treaties with the Cherokee Indians of the date of the 8th July 1817 and the 27th February 1819 and have now the honor of presenting my answers to those questions.

The questions are

First, whether the reservations taken under the treaty of 1817, subsequent to the 1st of July 1818 and previous to the conclusion of the treaty of the 27th February 1819 are valid.

Secondly whether reservations could be taken subsequent to the last treaty, and if so, at what time the right to take them ought to cease.

First:— By the 8th article of the first of these treaties it is stipulated that the heads of Indian families residing on the east side of the Mississippi, on lands surrendered to the U. S. who might wish to become citizens of the U. S. should be entitled to a reservation of 640 acres, each: that the register of the names of such as chose to avail themselves of this privilege should be filed in the office of the Cherokee Agent, which register was to be kept open until the census should be taken as stipulated by the 3d article. By the 3rd article it was stipulated that a census should be taken of the whole Cherokee nation during the month of June 1815 which census was to be taken by a Commissioner to be appointed

by further argument.

I have been informed by Robt Houston Esq. that the legislature of Tennessee has passed a bill touching the Cherokee reservation under Jackson's treaty & the one with the Cherokee delegation concluded in this city in 1819 by which the reservations taken between the 1st of July 1818 & the 10th of March 1819 & between the 10th of March 1819 and 10th September 1819 are invalidated. In consequence of this information I referred the question to the Atty Gen.l a copy of whose opinion I now have the honor of transmitting to you. I have instructed Mr Houston the Commissioner to proceed to buy off the reservations under the treaties conformably to this opinion. I hope no difficulties will arise by the legislature of Tenn.e giving a different construction from that of the Atty General.

War Department
Office Indian Affairs
20 March 1817

Gentlemen

I have received the communication from your Secretary dated on 8. instant - stating that you have rendered decrees favorable to the claimants in the following reservation cases - viz. Ah-lea-kee's children, Betsey McIntosh, John Shoe make and wife's heirs and John McNary and wife's heirs, "that from all the evidence presented to the Board these cases appear to be just and should be allowed," but that upon reflection you had instructed him to inform me as to the disposition of these claims, and to ask me "if there are "any facts within the knowledge of your (this) "Department that would affect their validity, "and if so, that you (I) would communicate the "same to the Board" that "this application is "made for the sake of information merely to acquire "the knowledge of any facts that may have escaped "their (your) notice - so that they (you) may "determine finally upon the merits of each case "cautiously and securely".

When the records and papers which had been the subject of action by your predecessors were turned over to you as their successors, this Department entertained the opinion that they embraced all the material facts other than those which might be elicited during the examination of claims

of War of 23d January 1828 made in obedience to a resolution of the House of Representatives and the list which accompanied it "of each and every head of an Indian family, who is "entitled to a reservation of land, by virtue of the treaty "made between John C. Calhoun, late Secretary of War, and "the Chiefs and Head men of the Cherokee nation of Indians "at the city of Washington, on 27th day of February 1819."

Whether the papers now transmitted contain any fact of which you were not before in possession that would affect the validity of the claims adverted to as is before remarked, impossible for this Department to determine; but it is suggested whether they do not indicate that the widow and children of Ah-lee-she were parties to a sale of the reservation taken by them, and that the name of Betsey McIntosh is not designated as the head of an Indian family entitled to land under the treaty of 1819, according to the papers accompanying the report of the Secretary of War of 23. January 1828, above referred to.

Very respectfully
